

FEBRUARY / FÉVRIER

ARTICLES

<b>J. M. Duncan</b> Thirteenth Bjerrum Memorial Lecture: A case history of mysterious settlements in a building	1
<b>Ameir Altaee, Bengt H. Fellenius, and Erman Evgin</b> Axial load transfer for piles in sand. I. Tests on an instrumented precast pile	11
<b>Ameir Altaee, Erman Evgin, and Bengt H. Fellenius</b> Axial load transfer for piles in sand. II. Numerical analysis	21
<b>P. Gaffran, D. C. Sego, and A. E. Peterson</b> Performance of an anchored sheet pile wall on the CN Rail line, Boston Bar, British Columbia	31
<b>R. K. Rowe and K. M. Lee</b> An evaluation of simplified techniques for estimating three-dimensional undrained ground movements due to tunnelling in soft soils	39
<b>Bruce J. Carter and Emery Z. Lajtai</b> Rock slope stability and distributed joint systems	53
<b>J. B. Jamieson and C. D. Johnston</b> A fracture-arrest model for unconfined dry slab avalanches	61
<b>C. B. Crawford, R. J. Fannin, L. J. deBoer, and C. B. Kern</b> Experiences with prefabricated vertical (wick) drains at Vernon, B.C.	67
<b>K. G. Raven, K. S. Novakowski, R. M. Yager, and R. J. Heystee</b> Supernormal fluid pressures in sedimentary rocks of southern Ontario — western New York State	80
<b>R. N. Chowdhury</b> Simulation of risk of progressive slope failure	94
<b>Y. L. Cao and K. T. Law</b> Energy dissipation and dynamic behaviour of clay under cyclic loading	103
<b>K. D. Eigenbrod and J. P. Burak</b> Field measurement of anchor forces, ground temperatures, and pore-water pressures behind a retaining structure in northwestern Ontario	112
<b>Guy Lefebvre, Denis Leboeuf, Pierre Hornych, and Luc Tanguay</b> Slope failures associated with the 1988 Saguenay earthquake, Quebec, Canada	117
<b>Marius Roy, Jean Tardif, Serge Leroueil, Gaston Larose et Pierre La Rochelle</b> Effets du gel sur les infrastructures routières argileuses au Québec	131
<b>Ian J. Jordaan, Barry M. Stone, Richard F. McKenna, and Mark K. Fuglem</b> Effect of microcracking on the deformation of ice	143

NOTES

<b>G. T. McKenna, J. L. Luternauer, and R. A. Kostaschuk</b> Large-scale mass-wasting events on the Fraser River delta front near Sand Heads, British Columbia	151
<b>Martin Fahey</b> Shear modulus of cohesionless soil: variation with stress and strain level	157
<b>Han Ping Hong</b> One-dimensional consolidation with uncertain properties	161

DISCUSSIONS

<b>Paul W. Mayne</b> Interpretation of overconsolidation ratio from <i>in situ</i> tests in Recent clay deposits in Singapore and Malaysia: Discussion	166
<b>M. F. Chang</b> Interpretation of overconsolidation ratio from <i>in situ</i> tests in Recent clay deposits in Singapore and Malaysia: Reply	168

## AUGUST / AOÛT

## ARTICLES

- H. H. Vaziri and V. M. Troughton** An efficient three-dimensional soil-structure interaction model for analysis of earth retaining structures 529
- P. K. Robertson, J. P. Sully, D. J. Woeller, T. Lunne, J. J. M. Powell, and D. G. Gillespie** Estimating coefficient of consolidation from piezocone tests 539
- Peter K. Robertson, David J. Woeller, and Kofi O. Addo** Standard penetration test energy measurements using a system based on the personal computer 551
- K. O. Addo and P. K. Robertson** Shear-wave velocity measurement of soils using Rayleigh waves 558
- M. H. El Naggar and M. Novak** Analytical model for an innovative pile test 569
- Farrokh Nadim and Suzanne Lacasse** Probabilistic bearing capacity analysis of jack-up structures 580
- M. M. Nobre and J. F. Sykes** Application of Bayesian Kriging to subsurface characterization 589
- K. Y. Lo, K. S. Ho, and I. I. Inculat** A novel technique of electrical strengthening of soft sensitive clays by dielectrophoresis 599
- Z. Eisenstein and L. Samarasekera** Stability of unsupported tunnels in clay 609
- D. M. Cruden and Z. Y. Lu** The rockslide and debris flow from Mount Cayley, B.C., in June 1984 614
- Vinod K. Garga and Mahbubul A. Khan** Interpretation of field vane strength of an anisotropic soil 627
- Robert P. Chapuis, Jacques Lavoie, and Doris Girard** Design, construction, performance, and repair of the soil-bentonite liners of two lagoons 638
- E. C. McRoberts and J. A. Sladen** Observations on static and cyclic sand-liquefaction methodologies 650
- D. J. Gendzwill and D. Stead** Rock mass characterization around Saskatchewan potash mine openings using geophysical techniques: a review 666
- Xian-qin Hu and D. M. Cruden** Rock mass movements across bedding in Kananaskis Country, Alberta 675
- P. K. Robertson, D. J. Woeller, and W. D. L. Finn** Seismic cone penetration test for evaluating liquefaction potential under cyclic loading 686

## NOTES

- Denis Isabel, Pierre Gélinas, and Jacques Locat** Use of a groundwater flow model to explain strong upward gradients in rock formation underneath the Mercier site 696
- Hans H. Vaziri and Yingcai Han** Nonlinear vibration of pile groups under lateral loading 702
- Robert P. Chapuis** Similarity of internal stability criteria for granular soils 711
- Vlodek R. Tarnawski and Bernhard Wagner** A new computerized approach to estimating the thermal properties of unfrozen soils 714

## OCTOBER / OCTOBRE

## ARTICLES

- V. Ravi** Statistical modelling of spatial variability of undrained strength 721
- N. Yang and S. L. Barbour** The impact of soil structure and confining stress on the hydraulic conductivity of clays in brine environments 730
- J. P. Hsi and J. C. Small** Ground settlements and drawdown of the water table around an excavation 740
- B. Ladanyi and J. Sgaoula** Sharp cone testing of creep properties of frozen sand 757
- D. V. Ramsamoosj and R. Piper** Theoretical prediction of rutting in flexible pavement subgrades 765
- B. Rajani and N. Morgenstern** Behaviour of a semi-infinite beam in a creeping medium 779
- D. J. Hagerty and M. M. Nofal** Design aids: anchored bulkheads in sand 789
- Chaim J. Poran and Jorge A. Rodriguez** Design of dynamic compaction 796
- R. N. Yong, A. M. O. Mohamed, and B. W. Wang** Influence of amorphous silica and iron hydroxide on interparticle action and soil surface properties 803
- L. Samarasekera and Z. Eisenstein** Pore pressures around tunnels in clay 819
- S.-C. R. Lo and D.-W. Xu** A strain-based design method for the collapse limit state of reinforced soil walls or slopes 832
- Faisal Haji Ali, Aminuddin Adnan, and Chew Kam Choy** Use of rice husk ash to enhance lime treatment of soil 843
- Thomas G. Thomann and Roman D. Hryciw** Stiffness and strength changes in cohesionless soils due to disturbance 853

## NOTES

- J. B. Jamieson and C. D. Johnston** Snowpack characteristics associated with avalanche accidents 862
- Said M. Easa** Exact probabilistic solution of two-parameter bearing capacity for shallow foundations 867
- D. N. Singh and P. K. Basudhar** A note on the optimal lower bound pull-out capacity of inclined strip anchors in sand 870

## DISCUSSIONS

<b>S. K. Ampadu and F. Tatsuoka</b> Measurement of soil strength in simple shear tests: Discussion	874
<b>J. H. Atkinson, W. H. W. Lau, and J. J. M. Powell</b> Measurement of soil strength in simple shear tests: Reply	878
<b>Mary Joel S. Roth</b> Partial and total factors of safety in anchored sheet pile design: Discussion	879
<b>A. J. Valsangkar and A. B. Schriver</b> Partial and total factors of safety in anchored sheet pile design: Reply	880

## DECEMBER / DÉCEMBRE

## ARTICLES

<b>J. F. Sykes and J. D. Miller-Cushon</b> Adjoint sensitivity theory for a pack ice momentum model	881
<b>J. F. Sykes and J. D. Miller-Cushon</b> Sensitivity analysis of ice motion near Adams Island	890
<b>Ashraf Hefny and K. Y. Lo</b> The interpretation of horizontal and mixed-mode fractures in hydraulic fracturing tests in rocks	902
<b>R. S. Ferreira and P. K. Robertson</b> Interpretation of undrained self-boring pressuremeter test results incorporating unloading	918
<b>K. M. Lee, R. Kerry Rowe, and K. Y. Lo</b> Subsidence owing to tunnelling. I. Estimating the gap parameter	929
<b>R. Kerry Rowe and K. M. Lee</b> Subsidence owing to tunnelling. II. Evaluation of a prediction technique	941
<b>Li Yan and Peter M. Byrne</b> Lateral pile response to monotonic pile head loading	955
<b>Z. Chen, N. R. Morgenstern, and D. H. Chan</b> Progressive failure of the Carsington Dam: a numerical study	971

## NOTES

<b>Krishna R. Reddy and Surendra K. Saxena</b> Liquefaction resistance of cemented sands under multidirectional cyclic loading	989
<b>Vincent Silvestri and Claudette Tabib</b> Analysis of elliptic vanes	993

## DISCUSSIONS

<b>J. D. Jardine, E. L. Long, and E. Yarmak</b> Thermal analysis of forced-air and thermosyphon cooling systems for the Inuvik airport expansion: Discussion	998
<b>Ashraf Ghaly</b> Bearing capacity of flexible piles under eccentric and inclined loads in layered soil: Discussion	1002
<b>A. S. Yalcin and G. G. Meyerhof</b> Bearing capacity of flexible piles under eccentric and inclined loads in layered soil: Reply	1003
<b>Thomas C. Sandford</b> Partial and total factors of safety in anchored sheet pile design: Discussion	1004
<b>A. J. Valsangkar and A. B. Schriver</b> Partial and total factors of safety in anchored sheet pile design: Reply	1005

## BOOK REVIEW / CRITIQUE DE LIVRE

<b>A. J. Valsangkar</b> Principles, methods and applications of particle size analysis	1006
--	------

## ERRATA

<b>Z. Eisenstein and L. Samarasekera</b> Erratum: Stability of unsupported tunnels in clay	1007
<b>L. Samarasekera and Z. Eisenstein</b> Erratum: Pore pressures around tunnels in clay	1007
<b>B. Ladanyi and J. Sgaoula</b> Erratum: Sharp cone testing of creep properties of frozen sand	1008

## WORKSHOP ON

## Stress Partitioning in Engineered Clay Barriers

Duke University  
Durham, N.C., U.S.A.  
May 29-31, 1991

## ATELIER INTITULÉ

## Stress Partitioning in Engineered Clay Barriers

Duke University  
Durham, N.C., U.S.A.  
du 29 au 31 mai 1991

## OVERVIEW / SURVOL

<b>Malcolm N. Gray</b> Workshop on Stress Partitioning in Engineered Clay Barriers, Duke University, Durham, N.C., U.S.A., May 29-31, 1992: Overview	1011
